Walt Disney’s dream of “a family park where parents and children could have fun—
together” became a reality for Europeans when Disneyland® Paris first opened its doors
in April 1992. Since then, Disneyland Paris has helped several generations to create
lifelong memories in the Disney tradition.

Disneyland Paris has grown with its guests to become Europe’s number one tourist
destination. Today Disneyland Paris is a multi-day resort offering two world-class theme
parks, six themed Disney hotels, two Disney Nature Resorts, a 27-hole golf course, the
Disney Village® entertainment complex, and Europe’s largest integrated corporate
events venue.
OVERVIEW

GUEST EXPERIENCE

May it be with family, friends or loved ones, there is always something unique to experience at Disneyland Paris®. In 2019, Disneyland Paris was named the World’s Leading Theme Park Resort by World Travel Awards for the second year in a row, while fan-favorite attractions and experiences were recognized by European Star Awards, Travellers’ Choice Awards and Family Traveller Excellence Awards, among others.

What sets Disneyland Paris apart – and for that matter, every Disney park around the world – is its exceptional commitment to the ever-changing needs and interests of guests. The stories, the characters, and the franchises – Disney, Pixar, Marvel and Star Wars – fuel the guest experience and continue to be key differentiators of our unparalleled guest experience. We aim to attract, surprise and enchant guests of all ages, from families with young children to young adults alike, with one single goal in mind: exceed expectations. We are continually reinventing ourselves, through a transformative and disruptive approach, in line with the relentless creativity and innovation at the heart of our brand DNA.

As we continue to expand the guest experience, Disney’s Hotel New York is being reimagined as Disney’s Hotel New York – The Art of Marvel, a major transformation of an which will make it the first ever hotel dedicated entirely to the celebration of Marvel art and the first Disney hotel to host Marvel Super Heroes. Walt Disney Studios Park is also undergoing a major transformation that will add three new areas based on Marvel, Frozen and Star Wars, along with new attractions, shops, restaurants and live entertainment experiences.

COMMUNITY INVOLVEMENT

Disneyland Paris is dedicated to inspiring lasting and positive change in the community, including championing the well-being of children. That community support is most visible through the Disney VoluntEARS program, a company-sponsored initiative supporting employee volunteerism. Every year, more than 1,000 Disney VoluntEARS bring their talents, expertise, enthusiasm and spare time to the community. In 2019, the company supported more than 1,500 community outreach actions with more than 100 European non-profits, including onsite daytime events at the resort, wishes granted to children and Disney VoluntEARS visits to medical centers. Disney VoluntEARS are also involved in major solidarity events designed to raise awareness and funds for important local and national causes.

THE ENVIRONMENT

Disneyland Paris strikes a balance between protecting the environment and growing its business with the long-term goal to set the standard in sustainability for companies in the European leisure and tourism industry, carrying on the strong belief that nature must be protected and preserved which is deeply rooted in Walt Disney’s vision and legacy. The cornerstones of this approach at the resort are conserving water, energy and ecosystems; reducing waste and greenhouse gas emissions; and inspiring others to take action for the environment. Many improvements are regularly made, such as operating an on-site water treatment station and geothermal energy facility, implementing renewable energy and cleaner fuel alternatives, reducing single-use plastic waste and supporting environmental initiatives to raise awareness for guests and cast members. Disneyland Paris is committed to limiting its impact on the environment and to make the Disney experience even more magical for current and future generations.

ECONOMIC IMPACT

Disneyland Paris is committed to having a positive social and economic impact on its community. In 2017, Disneyland Paris and French public authorities presented the results of a study on the social and economic impact and contribution to tourism of Disneyland Paris over its 25 years. The destination has created more than 56,000 direct, indirect and induced jobs. Furthermore, between 1992 and 2017, the destination generated €68 billion of added value for the French Government and €7.1 billion in taxes paid.
