OVERVIEW

NEW DEVELOPMENTS

Since opening, Hong Kong Disneyland Resort has consistently launched innovative attractions and entertainment offerings, including Toy Story Land in 2011, Grizzly Gulch in 2012, Mystic Point in 2013, home to one of the most sophisticated trackless ride systems ever built by Disney, the first-of-its-kind Disney Paint the Night parade in 2014, a technologically advanced wonder with more than 740,000 LED lights, and more.

In 2016, the resort announced a multi-year expansion, including new areas based on Frozen and Marvel, and new entertainment experiences. The expansion kicked off in May 2018, such as Moana: A Homecoming Celebration, an atmospheric stage show that opened in May 2018. On March 31, 2019, Hong Kong Disneyland's long anticipated, second Marvel-themed attraction, Ant-Man and The Wasp: Nano Battle!, debuted at Tomorrowland. The interactive attraction shrinks guests to ant size to fight alongside the Super Hero duo against Hydra.

As the centerpiece of the resort, the castle is undergoing a major transformation and will be launched in 2020. The reimagined castle will pay tribute to the beloved Disney princesses and heroines to represent diversity and unity, and will also feature an all-new daytime show and nighttime spectacular. The brand new Bibbidi Bobbidi Boutique in the castle area opened in summer 2019, where little Guests can enjoy a dream-come-true immersive and magical princess transformation experience.

OWNERSHIP AND MANAGEMENT

Hong Kong Disneyland Resort is a joint venture between The Walt Disney Company and the Government of the Hong Kong Special Administrative Region. The Government of the Hong Kong Special Administrative Region owns a 53% interest in the resort and The Walt Disney Company owns the remaining 47% interest. A separate Hong Kong subsidiary of Disney is responsible for managing the resort.

ECONOMIC IMPACT

As a major tourist destination, Hong Kong Disneyland Resort is committed to contributing to Hong Kong and serving the local community. In the past 14 years of operations combined, the resort brought approximately HK\$108.5 billion (US\$13.9 billion) of added value to the city's economy, equivalent to 0.33% of Hong Kong's GDP, and cumulatively created 269,500 jobs (in terms of many-years), benefiting Hong Kong's overall economy.

COMMUNITY INVOLVEMENT

Following in The Walt Disney Company's tradition of service, Hong Kong Disneyland Resort has devoted considerable resources—both in-kind support and volunteer hours—to improving the community.

In fiscal year 2019, Hong Kong Disneyland Resort worked with 400 organizations to provide more than 100,000 complimentary park visits for people in need. The resort's Disney VoluntEARS completed 100,000 hours of skill-based and volunteer service since park opening in 2005. With the official opening of the Hong Kong Children's Hospital in June 2019, over 26,000 pieces of new in-patient clothing were produced under The Walt Disney Company funded project "Dress Well", catering to child patients' special needs.

THE ENVIRONMENT

Hong Kong Disneyland Resort's extensive environmental initiatives include energy efficiency efforts, "green" purchasing, greenhouse gas reduction, water conservation, waste reduction and recycling in the hotels and park. From September 2018, the resort replaced plastic straws with paper straws which are only distributed upon request, reducing the use of plastic straws by about four million per year. Our efforts also include donation of surplus food to the needy in the community and awareness programs for guests and Cast Members.

Hong Kong Disneyland Resort is continuing its efforts in creating the single largest solar panel site in Hong Kong. By the end of 2019, over 4,500 panels will be installed across 14 of the resort's buildings and the site will have enough capacity to generate up to 1.8 million kWh of energy each year - enough to power over 500 families of three on average.
